Repairs to Third class Travellers Bungalows

Letter No 3538 the 22.1.04 from the President, District Board, Hassan

1 Repairs to 3rd Class Travellers Bungalows are being done by the Public Works Department. The President suggests that repairs to these buildings may hereafter be done by the Rev department through the Work Inspectors. He adds that the Chief Engineer has no objection to the transfer of the Bungalows in question to the District Boards concerned for future maintenance in case the Government approve of the President's suggestion. The President is of opinion that the change suggested by him would reduce the percentage of charges for supervision on works executed in the Rev dept

Sir,

I have the honor to state that provision is being made in the District Fund Budget on account of the repairs of 3rd class Travellers' Bungalows under the head "B. Public Works to be executed by the Revenue Department. The Executive Engineer, Hassan Division having on the motion of the Examiner, Public Works Accounts, requested the transfer of the amount

amount provided under this head
d." A. Public Works to be executed in
the Public Work Department," I ex-
-plained to the Executive Engineer
that the transfer desired cannot be
effected as a special establishment
exists that of Work- Inspectors has
been constituted in the Revenue De-
-partment to carry out the necessary
repairs to the 3d Class Travellers Bunga-
lows. A copy of Docket No 170/D.W.B dated
23d October/03 addressed to the Exe-
-cutive Engineer is herewith submit-
-ted for favour of information. Repar-
ding this, the Chief Engineer in enquire
desires me to conform to the existing
practice regarding the maintenance
of Travellers' Bungalows till the
Government order a change in respect
thereof

thereof. The Chief Engineer states also that in case the Government direct a change, he has no objection to the transfer of the Bungalows in question to the District Road Board concerned for future maintenance.

Under the above circumstances, I request the favour of your obtaining the orders of Government in the matter of executing the necessary repairs to 3rd Class Travellers' Bungalows.

I beg to add here for the information of Government that, as decided by the Chief Engineer, I have addressed the Executive Engineer stating that until the Government pass their orders in the matter the maintenance of the 3rd Class Travellers' Bungalows in the District may be looked after by the Public Works Department.

I have the honour to be,

Enclosure No.

With reference to his no docket no. 254 dated 31st July last and subsequent references requesting to rectify the provision in the current year's Budget on account of repairs of Travellers' Bungalows and Dharmasalas has the honor to state that the sum of Rs 800/- provided under the head "B. Public works to be executed by

Revenue

Revenue Department" includes the amount required for the repairs of Travellers' Bungalows as also of Musafirkhanas,

The maintenance of Travellers' Bungalows was, by Public Works Department Secretary's circular no: 152 dated 10th December 1887, quoted in his docket under reply, vested in the Public Works Department presumably for want of establishment in the Revenue Department to execute such repairs. I know that, in the Revenue Department, there is a special establishment to supervise Local Fund and Municipal works executed in the Revenue Department, the ordinary repairs of Travellers' Bungalows may be executed in the Revenue Department, the Works Inspectors employed in the District being fairly competent to execute the works. Repairs or improvements of a nature requiring technical and professional skill will, of course, be entrusted to the Public Works Department, payment for such works being made out of the Budget provision in the Revenue Department.

It may also be stated here that the orders issued by Government from time to time direct that cost of supervision charges in the Revenue Department should under no circumstances be allowed to exceed 10 per cent of the value of works executed. The Work-Inspectors in the District are paid from Rs 15 to 35 with house allowance from Rs 7 to Rs 15 per month. To the cost thus incurred, has to be added also the cost of pay of the peons allowed to the Work-Inspectors. Under this arrangement, the total value of works supervised by the Work-Inspectors in the District should amount to not less than nearly Rs 20,000/- annually. The provision in the District Fund Budget and account

account of works to be executed in the Revenue Department being too small owing to the crippled condition of the District Fund finances of this District, it is apprehended that the chances of supervision charges exceeding the prescribed limit of 10 per cent may be increased by transfer of funds available in the Revenue Department to the Public Works Department.

It may be added also that the Government in constituting the establishment of Work-Inspectors evidently mean that the ordinary repairs of 3rd Class Travellers' Bungalows which are maintained by District Funds may also be executed in the Revenue Department by the Special Agency.

Under the above circumstances the rectification of the existing provision

provision of Rupees 800/- for repairs of Travellers' Bungalows under the head "B. Public Works to be executed by Revenue Department does not seem desirable.

The Board were of opinion that

that a departure from existing practice was not desirable because the Public Works department had greater facilities for arranging labour and better financial resources and more competent agencies of supervision than the Revenue Department.

The reason that had induced the proposal from this Office was that additional work for the Work Inspectors might tend to bring the cost of Establishment to 10 per cent of the amount spent on works executed.

I beg to suggest that the rule as to percentage may be relaxed.

Docket No.1533/197 dated 13th March 1904 from the Executive Engineer, Bangalore Division, to the Superintending Engineer, Eastern Circle.

His No.1054 dated 17th ultimo forwarding copy of Chief Engineer's No.1146 dated 15th idem, and calling for a report regarding the question of the Revenue Department carrying out the ordinary repairs of 111 class Travellers' Bungalows.

With reference to the above, has the honor to state that in the opinion of the undersigned, repairs are more promptly attended to and the buildings better kept up by the Public Works Department than by the Revenue Department. Work Inspectors under whose supervision the repair works of these Bungalows are proposed to be carried out are not generally men of training and undersigned doubts of their capacity for estimating, correct measuring and descriminating between good and bad works, It is not toom much interfering with the ordinary work of D.P.W. Sub Divisional officer to attend to repairs as these Bungalows are on roads, the maintenance and supervision of which rest with him.

Docket No.1756 dated 24th March 1904 from the Superintending Engineer, Eastern Circle to the Chief Engineer of Mysore.

Chief Engineer's No.1146 of 15th ultimo, forwarding copy of Government Proceedings No.2924-32/L.F. 42-92 of 9th idem, calling for opinion on the proposal to entrust the Revenue Department with the execution of ordinary repairs to 3rd class travellers' Bungalows in the Province.

---

ith reference to the above, has the honor to state that the Executive Engineer, Kolar, and Chitaldrug Divisions are in favour of the proposal, while the Executive Engineer, Tumkur Division thinks that repairs to terrace roofs should be carried

carried out by the P.W.D.as this kind of work requires special treatment.

2. The Executive Engineer, Bangalore Division,however,thinks that the present arrangement need not be disturbed and his reasons for this are noted in detail in his No.1533/197 of 13th instant, (copy enclosed).Undersigned is inclined to agree with this officer as undersigned is not satisfied but that disadvantages will result in increasing the responsibilities of the Revenue Department in respect to these Bungalows.

&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&

Docket No.1346 dated 26th March 1904 from the Superintending Engineer,Western Circle to the Chief Engineer of Mysore.

Chief Engineer's No.1147 dated 15th ultimo, forwarding for opinion, copy of Government Proceedings No.2924-32/T.W.42-92 dated 9th idem,regarding the execution of ordinary repairs to the 3rd Class Travellers' bungalows by the Revenue Department.

Has the honor to inform the Chief Engineer that the Executive Engineers of the Circle,on being asked for their opinion on the subject state,as follows :-

(1) Executive Engineer,Shimoga Division,has no objection to the proposed change,and similar opinion has been expressed by the Executive Engineer,French Rocks Division,on the grounds that it will relieve Executive Engineers of a number of petty and harassing works and that funds are not generally made available for these works when requisitions proceed from this Department.

2. Executive Engineer,Mr Mahadevasastry,Hassan Division states that the existing arrangements may be continued as the ordinary repairs in the Division are so small that they cannot appreciably reduce the percentage of charges on account of work Inspectors pay nor will it be an appreciable relief to the P.W.D.

3. Mr.Molloy,Executive Engineer,Kadur Division states as the

the result of practical experience that the proposed change will not be to the interest of the structures or tend to the comfort of the travelling public. He further mentions the extreme deterioration of furniture in Travellers' bungalows since their care was transferred to the Revenue Department.

4. The undersigned concurs with Mr. Molloy's opinion on the subject in question.

5. No reply is yet received from the Executive Engineer, Mysore Division. It is however considered to be unnecessary to wait for the same.

Sir,

With reference to G. O. No 2924-32 / L.F 42-92 of the 9th February 1904 and last reminder No: 4513 / L.F 42-02 of the 19th May 1904, calling for an expression of opinion together with the resolution of the District Board, regarding the execution of ordinary repairs of 3rd class Travellers' Bungalows by Revenue Department, I have the honor to state that the subject was discussed at a meeting of the District Board held on the 22nd March 1904, and it was resolved that the suggestion made by the President of the District Board of Hassan District might be adopted. A copy of the resolution is herewith submitted. While concurring in

with the opinion of the Board in that
main, I think it is necessary that
the power of the Board in this
direction must be limited. If the
amount of the estimate exceeds Rs
250/- or if any addition or alteration
is to be effected to an existing building,
the work may be transferred to the
Public Works Department. I beg to add
that the execution of repairs of 1st &
2nd class Travellers Bungalows also
may be entrusted to the Revenue Depart-
